

Imperial College Union

STUDENT MEDIA REGULATIONS

A note by the President

Introduction

The following minor amendment was accepted by Union Council to make the following revision to paragraph 12 of the Staff Student Protocol (SSP). The additional text is underlined

12. The maintenance of the integrity of the Union as an employer precludes any staff matters, either related to work or personal matters, from being discussed in any open forum of the Union. This does not include the discussion of departments or the performance of a department as a whole save where a department has only one staff member.

In my view this does not undermine the SSP and this definition will assist future Presidents when they are required to interpret this document.

Decision Required

1. To approve the above amendment to the Staff Student Protocol
