## **Deputy President (Finance and Services)**

A Report by Chris Larvin

Another late report, and also rather short. Sorry!

### **Summer Ball**

This has taken up a huge amount of time as you might expect. Not much point going into intimate details but it's looking like it is going to be legendary. However, the next couple of weeks are going to be manic, so apologies in advance if I get behind on club issues.

### **Training**

In the last few weeks I've overhauled the Finance Training which I feel is a good step forward. I delivered the first session last week and will be delivering some more in the coming weeks. Also I've prepared guidance notes for the presentation and started reworking the Finance Manual for next year. This has been sent on to all CSC/FU chairs and treasurers and any feedback would be well received!

I have spent a little bit of time working on training for CSC/FU chairs and treasurers, and handover notes for Christian.

### **Clubs and Societies**

It has been relatively hard to work on clubs and societies tasks with everything else going on but everything seems to be ticking over without too many problems. Once again I've spent some time reviewing the applications to the IC Trust and providing my recommendations.

### **Other Bits**

Along with the other Sabbs, I have been involved in a number of meetings relating to the Student Union Evaluation Initiative. This looks like it will be a great exercise that will help develop the Union. Last month I attended the eLearning Committee on behalf of the DPEW who was triple booked and I also went to a seminar on Trading Activities and Governance which turned out to be quite interesting.

Stephen and I will be presenting a follow-up report to the College Audit Committee on Wednesday 11<sup>th</sup> which should be fun.

### **Thank You**

A massive thank you to everyone who has helped me this year, it's been great.
