

Imperial College Union  
**Motor Club Reserve**  
*A Paper by ICU President – Scott Heath*

**Background**

1. The Membership Services Manager has provided a note (Appendix One) which discussed the Clubs and Societies Board request to investigate the Motor Club Reserve.
2. On page 2 of the document there is a question posed: “Should the Union honour the £7,488 for future use of the vintage vehicle motor clubs?” – A figure which represents the £2,000 per year donations, less expenditure.
3. This decision is pertinent to some repairs required to Bo, which will cost around £2,200 and would have been claimed from this pot.
4. With any decision there are many more unanswered questions.
  - If the Executive Committee decides to allow the VVMC to access the £7,488 of ‘reserves’ how should they be recorded on our systems? Who will allow access to the money? Etc.
  - If the Executive Committee decides not to allow the VVMC access to the £7,488 of ‘reserves’ should it cover the cost of the repairs to Bo?

**Resolves**

1. To decide a reasonable action to take in light of the Membership Services Managers note.
