

Student Hubs Memorandum of Understanding
A note by the Union President – Paul Beaumont

1. At the November Trustee Board 2011, a Memorandum of Understanding between Imperial College Union and Student Hubs (providers of Connecting students with causes) was agreed.

2. The MoU is an agreement to:

ICU and Connecting students with causes enter into this agreement in the spirit of partnership and will jointly review the terms, conditions, duties and responsibilities at least one month before the anniversary of commencement.

3. The MoU is now up for renewal.
4. Whilst overall the year has run smoothly, there are some changes that I would suggest we make in the agreement, as well as some operational faults that need to be ironed out before fully re-committing to this agreement again.
5. With the new role of Student Development Manager now in place, a proper review of what the Union wants to offer students can now take place.

Proposal:

1. To agree to continue the agreement under the current terms until the next Trustee Board meeting in May.

Action:

1. President to present a plan for going forward at the next Trustee Board meeting.
