

Management Group Restructure

A paper by Deputy President (Clubs & Societies) Abigail de Bruin

Background:

- The Management Group structure continues as a standing issue that requires action (18 June 2013 CSPB and 8 October 2013 CSPB)

Discussion

- It is a standing belief that the Management Structure does not function as well as it could and needs redeveloping
- The definition of the core purposes of a Management Group should be decided, to include:
 - Administration
 - Representation and Support
 - Forum for Collaboration
- Working from this definition, the Management Group structure should be considered and redeveloped to ensure all criteria are fulfilled
- The discussion of potential new Management Group structures shall continue from that originally proposed in the June 2013 CSPB paper
- As of September, the DPCS and DPFS discussed a system restructure as if there were none currently in place. This is a potential fresh starting point for discussion. The discussion led to an approximate suggested breakdown of:
 - Educational (30), Faith (13), Overseas (44), Charity (30), Competitive Team Sport (33), Individual Sport (33) – to also include Martial Arts (13), Recreational Activity (32) – to include Musical Performance (15), Appreciation (15), ICSMSU (currently unconfirmed), Departmental Societies to remain with Constituent Unions

Action

- To form a working group from the CSPB membership to take the restructure process forwards
