

**Deputy President (Welfare)**

**Christopher Kaye**

**'Dri' event**

'Dri' was held on Monday, 13<sup>th</sup> October. I was very encouraged by the turnout at the event, particularly as this was the first event held of its type. I am proud that it was so successful and am confident that by listening to the feedback and looking at which bits worked and which bits could be improved, a second iteration of the event in the future will be better still.

**Constituent Union inclusive events**

I am also encouraged by the Constituent Unions' non-alcohol based events so far this term, such as the RCSU's Tea Party, the RSMU Olympics, and also ICU's very own Treasure Hunt. They have been successful and very well received. I commend them wholeheartedly on this.

**College Committees**

I attended the College's Equality and Diversity Committee, the Health & Safety Consultative Committee, and I have been sitting on the Environment & Infrastructure stream helping draft the College's Five Year Plan.

**Welcome Fairs**

I attended two welcome fairs: Charing Cross and St Mary's. Both events were well-attended and some very keen students expressed their interest in campaigning and volunteering.

**Felix**

I have been feeding in to Student Media, where appropriate.

**Commemoration Day**

I attended two of the ceremonies. It was my honour and privilege to be Procession Marshal at the Medicine graduation ceremony at the Royal Albert Hall on Wednesday 22<sup>nd</sup> October. The second ceremony I attended was Natural Sciences, in my capacity as a new graduate! It was a delightful day and I would like to note how impressed I was with everyone involved, particularly the musicians and choir who were superb.
