

DPCS Report 24/01/17

In brief:

- Prayer Room
- Business School Constituent Union
- Management Group Development
- Sport at Imperial Survey
- Appendix 1 (sending out on 19/02/17)

Prayer Room

- Followed prayer room project to completion, the new space is lovely and the Islamic Society bought cake for us!

Business School Constituent Union

- I met once more with the representative from the business school who is keen to take this forward.
- The current offer to students is in line with what constituent unions offer already

CU	CU/MG	MG
Provide community/identity	Represent clubs at CSPB/Union Council	Exclusively run clubs
Run freshers' events	Assist with club management	Hold face-to-face agms
Uphold heritage/traditions	Assist with club budgeting	
Careers advice/signposting	Have financial scrutiny over clubs' finances	
Represent wider student	Provide emergency support	

body (automatically a part of)	for clubs	
Alumni Connection	Forum for similar clubs	
Academic Representation	Approve club expenditure	
Welfare support/signposting		
Variety of club activity		
Promote broader appreciation of faculties/science		

- Given there is no precedent to this, I recommended for Cat to come up with a wishlist and we could see how we could accommodate; they will draft a constitution based on the other CU examples.
- I noted in the meeting that provided that funding was provided through them there shouldn't be too much resistance to the idea and was met with a positive response to the issue that funding should continue to be provided.
- I noted that with the business school students beginning their courses in September/October, they could be elected in the Autumn elections (until the business school undergraduate courses start and then this can be reviewed).
- I stated that to begin with it would be too complex to merge the business school clubs and the related ICU clubs owing to the nature of the big elections, and suggested to review merging these fully in future years when the CU develops.
- I recommend that interested volunteers meet with myself and Cat to discuss how to acquisition would work fully.

Management Group Development

- I am bringing a paper to this meeting to approve the restructure with further information on the history of the project and CSPB recommendations.

Sport at Imperial Survey

- I will be releasing a survey on 25/01/17 to clubs to comment on the existing issues of sport and sport development offered in partnership between ICU and Sport Imperial.
- The results of this will feed into a review of the sports partnership board and sports strategy.
