

Motion on election disqualification

Someone disqualified from one position in an election should also be disqualified from other positions in that election

Proposed by: Daniel Wigh (KN MG Chair)

Seconded by: Nihil Shah (KN MG VC Education)

Union Notes:

- “Motion on Union Elections Rule Enforcement” was brought before union council on 20/03/2018, however this motion did not deal with disqualified candidates winning in other races.

Union Believes:

- People get disqualified for cheating both because it gives them an unfair advantage, and because cheating is immoral.
- The union shouldn't allow someone who cheated and got disqualified in the online election for society A to win a position in the same election in society B.

Union Resolves:

- Add clause in Bye-laws under section F-28 (Major elections – withdrawals)
 - When a candidate is disqualified from one or more positions, they are automatically withdrawn from all positions they were running for in that election.
