

Imperial College Union Council Report

Thomas Fernandez Debets, Deputy President (Clubs & Societies)

Last term was a steep learning curve with no Student Activities coordinators and a lot of work going into wider issues affecting the Union, including the departure of the Managing Director (MD) and a greater focus on Health & Safety (H&S). This month, a lot of time has gone into CSP Annual Budgeting. Below is an update on my manifesto points.

Goal 1 – New Sports Complex

At the time of running in the Leadership Elections 2019, Imperial College London's sports facilities were outdated and not fit for purpose.

- In 2019, £700,000 was invested in improving facilities at Harlington
- Sale on Heston consulted on with student stakeholders and set for summer 2020
- ➔ The Monday night service now forms part of a wider transport strategy being devised for the Union, with the aim to cater to students' transport needs. This includes minibuses, coaches and the recently acquired truck. A price freeze for Monday night transport has been secured at £4.50 for the rest of term and

Goal 2 – Promote CSPs' activities

Our Clubs, Societies & Projects (CSPs) have great knowledge and experience within their respective fields and cater to their members' needs. Promoting their activities does not only provide them with a platform to showcase them but would also ensure the Union engages more adequately with its membership, reflecting their interests.

- Arts Night and ACC Nights are two student-led events that take over the venue at Beit Quad. They are also two of the venues' most successful nights.
- ➔ An events group, similar to the Concert Hall User Group, will be created to review the events put on by the Union to better reflect the students' interests
- Weekly meetings for the Summer Ball 2020 and The Imperial Varsity are underway. Key students and CSP representatives are actively engaged and preparation is ticking along nicely
- The design of a social media takeover app has been paused. In the meantime, forms are now available to advertise [CSP events on screens](#) in the Union building and on the Sheffield walkway, as well as through [Instagram takeovers](#).

Goal 3 – Implement the new Athletic Union

The roll-out of the Sports Hub over the next few years is a joint project between Move Imperial and Imperial College Union that will improve students' experience within sport.

- ➔ Our partner creative agency, Borne, have come back with initial creative plans for the Sports Hub. At this stage, the Sport Chair, myself and Move Imperial have given feedback. Once Borne come back to us, feedback will be gathered from the student body and they will chose the brief we will be going with.
- ➔ With CSP Annual budgeting well underway and the first round of review having come to a close, parallel budgeting has now begun to ensure the Sports Hub's model is viable. Along with the development plans Move Imperial are creating with the clubs, this will form the basis for the roll out in September.
- ➔ Sports Hub Exec meetings to start this term to look at policy and frameworks for the upcoming roll-out
- Kit tender to take place once the branding of the Sports Hub is completed

Goal 4 – Improve spaces and processes

Our spaces are outdated and some of our processes need reviewing

- ➔ A review of the training provided to our volunteers has been recognised as a priority for the Union. The Student Development team are currently doing an audit of the team before undertaking a Learning Needs Analysis of our volunteers.
- ➔ The first step of this review looks at supporting senior volunteers who have long been undervalued by the Union but are essential to the running of our core networks, including CSPs. Starting this term, senior volunteers (including members of CSPB) will be invited to regular meetings where we will provide Union-wide updates and engage in conversations to answer any questions they may have about the wider Union's works.

- A storage project is underway, looking at maximizing the use of currently available spaces in Beit Quad and understanding further space requirements
- A project looking at supporting CSPs to be more H&S compliant is underway, with an external consultant supporting project leads with the Union.
- CSP Budgeting now enters its third phase. A lot of time has gone into writing and reviewing budgets and I would like to thank the volunteers of CSPB for all their hard work so far. The new approach and system seem to be working very well, with budgets being more realistic and in line with CSPB's expectations. Along with a secured increase in funds for CSPs' Grant, this will no doubt result in the best allocation percentages CSP Budgeting has ever seen.

Goal 5 – Better consultation and student inclusion

Despite a common aim to improve the student experience at Imperial College London whilst thriving for academic and research excellence, students have often been left out of the decision-making process at the highest level of the Union and the College. Their inclusion, and better understanding of the different groups that constitute our membership, will lead to better tailored decision-making.

- Regular meetings are taking place with senior volunteers and the Head of Student Experience and the DPCS. Follow up meetings are going to be organized for this term to review the outputs of the previous meetings and maintain the relationship that was built last term.
- Looking to put students at the centre of more decisions, I am working to get the Clubs, Societies & Projects Board (CSPB) involved in more decisions that affect CSPs, including those around Welcome Week and systems improvements to eActivities.
- 3000+ students have completed the Student Experience Survey. Having closed last week, its results will inform the operational plans the Head of Departments are putting together and will inform the 1-year plan the Union is writing for 2020/21.

Other

In this section, other items due to start in the near future are highlighted:

- Continue the roll-out of the new system for CSP Annual Budgeting
- Further support is being provided to those CSPs who host large shows this term
- A project to semi-automate the room booking process has now been confirmed and should be ready for annual requests in April, and for ad-hock requests in September.
- Following initial conversations with DoCSoc, we are going to look into the feasibility of having Imperial students directly contribute to the improvements of the Union's systems (now looking at this given IC Hack is over – congrats to all those involved in the organization of the event and those who took part!)
- Continue to support the Underwater club with the logistics around the purchase of the expedition truck and the required modifications (truck undergoing expedition modifications currently, which will help cater to students' transport needs)
- Involvement in the recruitment of the interim and permanent MD for the Union
- Recruited for the Events & Conferences Manager as well as the Student Activities Coordinator (Resources & Operations)
